***Energy Problems and Solutions  
for Coin Laundry Owners***

# Southern California Coin Laundry Association Tuesday, May 26, 2009

## Energy Problems and Solutions for Coin Laundry Owners

Energy costs are one of all laundry owners' biggest monthly expenses, and these costs are growing. We will focus on energy problems and solutions for laundry owners. Our guest speakers will be experts on the economics of supply and demand from local utility companies, followed by a panel of local store owners who will offer real-life answers as to how they keep their energy costs in check.
